

CREWS FAMILY ENDOWMENT FOR ENGINEERING SCHOLARSHIP APPLICATION INSTRUCTIONS FOR 2024-2025

Scholarships are available for incoming freshmen planning to major in engineering at Harding University. The scholarships are funded by the Crews Family Endowment for Engineering, which was set up by a very generous family of an engineering alumnus to help students start engineering careers at Harding.

The endowment is expected to fund two \$1,000 scholarships and one \$500 scholarship potentially for the students' first two academic years, with one-half given the Fall semester and one-half given the Spring semester each year.

REQUIREMENTS:

To be considered for an engineering scholarship, the student must

1. Apply and be accepted into the Fall 2024 class at Harding as a freshman
2. Declare Biomedical, Civil, Computer, Electrical, or Mechanical Engineering as their primary major
3. Fill out the Crews Family Endowment for Engineering Scholarship Application, which is found later in this application package

Students receiving the scholarships must maintain full time status for both Fall and Spring semesters during the term of the award.

The scholarships may be continued for one additional year (i.e., through the students' sophomore year) as long the students remain full time for the full duration of the scholarship, keep an engineering major as their primary major, maintain a Harding cumulative GPA of 2.75 or higher, and progress in the declared engineering major by taking engineering major classes. Scholarship funds will be applied to the students' Harding University accounts.

Scholarship deadline: April 2, 2024

To apply for the engineering scholarship, students must fill out the Crews Family Endowment for Engineering Scholarship Application, which is found later in this application package. The elements considered in awarding the scholarship include the student's demonstrated diligence, capability, leadership, scholarship, financial need and thoughts expressed in a required essay on the topic, "What it means to be a Christian engineer." The selection committee will also consider the students' ACT/SAT scores and the latest high school transcripts submitted to Harding. Award announcements will be made by the beginning of May.

CREWS FAMILY ENDOWMENT FOR ENGINEERING SCHOLARSHIP APPLICATION

The Crews Family Endowment sponsors three scholarships that are available for incoming freshmen planning to major in engineering at Harding University. The awards are based on demonstrated diligence, capability, leadership, scholarship, financial need, and an essay on the topic, "What it means to be a Christian engineer." The selection committee will also consider the students' ACT/SAT scores and the latest high school transcript submitted to Harding.

IMPORTANT NOTICE

This Adobe PDF form cannot be filled out and saved when it is opened using an internet browser, such as Chrome, Microsoft Edge, Safari, or Firefox. You must download the file to your computer and open it with Adobe Reader or Adobe Acrobat and then fill it out and save it.

Once the application is completed, please add your last name to the beginning of the application file name, for example 'LastName - EngineeringScholarshipApp.pdf,' and send the PDF file via email to Dr. Brad Miller at brad.miller@harding.edu

Completed applications must be received by the deadline listed on Page 1 to be considered for the scholarships.

**CREWS FAMILY ENDOWMENT FOR ENGINEERING
SCHOLARSHIP APPLICATION – Cont'd**

1. Please list your high school and community activities and awards.

2. Please provide a brief description of your plans for the future.

3. Describe any special financial needs which might impact funding for your college education.

4. Please write an essay on the topic, "What it means to be a Christian engineer." Please limit your essay to the space provided.
